

I strongly urge the FCC to deny the merger petition between Sinclair Broadcast Group and Tribune Media. Sinclair is already the country's largest broadcast company and if merged with Tribune Media, they would own stations that reach 72% of American households -- consolidating the power to decide what information reaches us into the hands of a powerful few. In these times, it is critical to not have politically biased segments put out by some corporate headquarters, but instead to air FACTS that the public can then formulate their own opinions. I urge you to reject the Sinclair-Tribune merger.
